

Tuxtla Gutiérrez, Chiapas,
26 de abril de 2017
Oficio No. FCFM/0144/17

Dr. Horst R. Beyer
"Profesor Invitado" del Centro
Mesoamericano de Física Teórica del MCTP.
Presente

Reciba este documento como muestra de agradecimiento, a la valiosa aportación que ha tenido, al ceder a la biblioteca "Augusto García" de la Facultad de Ciencias en Física y Matemáticas, la cantidad de 26 libros en calidad de DONACIÓN, mismos que enriquecerán nuestro acervo bibliográfico y permitirán cubrir las necesidades de información de nuestros usuarios.

**List of Books Donated by Horst R. Beyer to the
"Facultad de Ciencias en Física y Matemáticas
UNACH"**

- [1] Adams RA, Fournier JJF, 2003, *Sobolev Spaces*, 2nd ed., Academic Press.
- [2] Alinhac S, 2009, *Hyperbolic Differential Equations*, Springer.
- [3] Bellini-Morante A, Mc Bride AC, 1998, *Applied Nonlinear Semigroups*, Wiley & Sons.
- [4] Chicone C, Latushkin Y, 1999, *Evolution Semigroups in Dynamical Systems and Differential Equations*, AMS.
- [5] Cuyt A, Petersen VB, Verdonk B, Waadeland H, Jones WB, 2008, *Handbook of Continued Fractions for Special Functions*, Springer.
- [6] Cycon HL, Froese RG, Kirsch W, Simon B, 2008, *Schrödinger Operators*, Springer.
- [7] Davies EB, 2007, *Linear Operators and their Spectra*, Cambridge University Press.
- [8] Garabedian PR, 2007, *Partial Differential Equations*, AMS.
- [9] Grubb G, 1996, *Functional Calculus of Pseudodifferential Boundary Problems*, Birkhäuser.
- [10] Ikawa M, 2000, *Hyperbolic Partial Differential Equations and Wave Phenomena*, AMS.
- [11] John F, 1990, *Nonlinear Wave Equations: Formation of Singularities*, AMS.
- [12] Journé J-L, 1983, *Calderón-Zygmund Operators. Pseudo-Differential Operators and the Cauchy Integral of Calderón*, Springer.
- [13] Kato T, 1980, *Perturbation Theory for Linear Operators*, Springer.
- [14] Levinson N, Redheffer RM, 1970, *Complex Variables*, Holden-Day, Inc.
- [15] Marden M, 1966, *Geometry of Polynomials*, AMS.
- [16] Miyadera I, 1992, *Nonlinear Semigroups*, AMS.
- [17] Morawetz CS, 1975, *Notes on Time Decay and Scattering for some Hyperbolic Problems*, SIAM.
- [18] Pavel NH, 1987, *Nonlinear Evolution Operator and Semigroups*, Springer.

- [19] Pazy A, 1983, *Semigroups of Linear Operators and Applications to Partial Differential Equations*, Springer.
- [20] Pfeffer WF, 1993. *The Riemann Approach to Integration: Local Geometric Theory*, Cambridge University Press.
- [21] Rudin W, 1979, *Análisis Funcional*, Editorial Reverté, S.A.
- [22] Schechter M, 2002. *Operator Methods in Quantum Mechanics*, Dover.
- [23] Simmons GF, Krantz SG, 2007, *Differential Equations*, Mc Graw Hill.
- [24] Tartar L, 2007, *An Introduction to Sobolev Spaces and Interpolation Spaces*, Springer.
- [25] Warner FW, 1983, *Foundations of Differentiable Manifolds and Lie Groups*, Springer.
- [26] Zachmanoglou EC, Thoe DW, 1986, *Introduction to Partial Differential Equations with Applications*, Dover.

Sin otro asunto en particular me es grato enviarle un cordial saludo.

Atentamente

“Por la conciencia de la necesidad de servir”
